---

Computer Science student pursuing a Bachelor's degree with hands-on experience developing software applications and interactive game projects. Experienced with object-oriented programming, data management, collaborative development, and problem-solving through academic and independent projects.

Education:

Bachelor of Science, Computer Science Fall 2026 - Present
California State University Channel Islands · *Ventura County, CA*

- GPA 3.850

Associate of Science for Transfer, Computer Science Spring 2023 - Spring 2026
Solano Community College · *Fairfield, CA*

- GPA 3.105
- Dean's List
- Founding Member and Treasurer, Computer Science Club

Relevant Coursework:

Data Structures and Algorithms - CIS023 - Grade: A Spring 2025
Discrete Structures for Computer Science - CIS021 - Grade: A Fall 2025
Programming Languages - COMP232 - Grade: A Spring 2026

Technical Skills:

- Programming Languages: C++, C#, Java, Python, GDScript
- Web Technologies: JavaScript, HTML, CSS
- Development Tools: Git, GitHub, Visual Studio, Eclipse
- Game Development: Godot, Unity, Unreal Engine
- Technical Competencies: Object-oriented programming, data structures, gameplay systems, physics-based mechanics, debugging, performance optimization, CSV data management
- Creative Software: Blender, Adobe Creative Suite

Projects:

Creative ArtReach Inventory Manager · C#, Windows Forms

- Designed and developed a desktop application for Creative ArtReach to manage educational supplies and project information for its enrichment programs
- Implemented CSV-based data storage and parsing, separating application logic from inventory and project data
- Built features to search projects, track supply quantities, and identify materials requiring restocking

Are We There Yet? · Godot, GDScript GMTK Game Jam 2026
Collaborative Team Project · Four Members

- Developed gameplay systems for a raindrop-racing game, including physics-based movement, environmental obstacles, scoring, and race progression
- Implemented configurable day progression and synchronized race-end events to coordinate gameplay state transitions
- Created environmental effects using custom shaders and integrated character-specific dialogue audio with Godot Dialogue Manager
- Used Git and GitHub for version control, reviewing and integrating contributions from teammates
- Ranked #32 Overall out of 10,407 rated entries (Top 1%), with Top 1% placements in Creativity, Artwork, and Narrative, Top 2% in Audio, and Top 5% in Enjoyment

Work Experience:

Science & Robotics Enrichment Lead 2021 - 2026
Creative ArtReach · Vacaville, CA

- Helped develop and launch a science and robotics enrichment program, introducing VEX GO robotics activities across 12+ schools in four towns
- Designed and organized 20+ hands-on science activities and developed rotating lesson schedules for elementary students
- Coordinated educational materials, project supplies, and lesson preparation for instructors
- Led science, technology, and robotics lessons, adapting activities for different age groups and learning environments

Professional Game Master 2024 - Present
Kobold Press & private clients

- Hosted 49 tabletop roleplaying sessions through StartPlaying, maintaining a 5.0/5.0 player rating
- Adapted published and original adventures to accommodate player experience and group preferences
- Served as Game Master for a pre-recorded actual-play production sponsored by Kobold Press and published on YouTube
- Represented Kobold Press at Gen Con Indianapolis (2024–2026) and hosted online sessions for KoboldCon (2024–2026)
